COMPANY OVERVIEW

INNOVATION is a private limited company established in 2018, providing advanced industrial solutions across multiple sectors. We specialise in Screw Air Compressors, Vacuum Pumps, Industrial Pumps, Air Blowers, Process Solutions, and Material Handling Systems, delivering reliable and high-performance equipment tailored to diverse industrial applications.

With a strong commitment to quality, efficiency, and innovation, **INNOVATION** offers customised engineering solutions that help industries optimize productivity and operational performance.

Global Brands

MISSION, VISION & VALUES

MISSION

To provide innovative, reliable and cost-effective industrial solutions that enhance our customer's productivity and contribute to a sustainable future.

VISION

To be the most trusted engineering solution provider in the region through technology, quality and people.

VALUES

-  Integrity
-  Quality
-  Innovation
-  Teamwork
-  Customer Satisfaction

WHY CHOOSE INNOVATION

**Wide Range of High-Quality
Industrial Products**

**Genuine Products from
World Leading Brands**

**Expert Engineering
& Technical Support**

**Customized Solutions
for Every Industry**

**Timely Delivery
& After Sales Service**

**Commitment to Quality,
Safety & Environment**

VACUUM SOLUTIONS

Rotary Vane Vacuum Pump

Reliable and efficient single stage rotary vane vacuum pump for various industrial applications.

Two Stage Rotary Vane Vacuum Pump

High ultimate vacuum with energy efficiency for demanding industrial processes.

Dry Screw Vacuum Pump

Oil-free operation with high pumping speed and low maintenance.

Liquid Ring Vacuum Pump

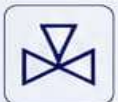

Suitable for handling wet gases and vapors in robust applications.

Roots Booster Vacuum Pump

Increases pumping speed and improves system performance for higher efficiency.

Dry Running Rotary Vane Vacuum Pump

Compact and reliable dry running rotary vane pump for clean vacuum applications.

Dry Claw Vacuum Pump

Oil-free claw technology with low noise and vibration for continuous operation.

Ring Blower/ Side Channel Blower

Maintenance-free blower for pressure and vacuum applications.

Turbo / Hybrid Molecular Pump

High vacuum performance for advanced research and industrial applications.

Dry Scroll Vacuum Pump

Quiet, clean and compact scroll pump for precise vacuum requirements.

Helium Leak Detector

Highly accurate leak detection for quality assurance and process safety.

PUMPING SOLUTIONS

Centrifugal Pumps

Submersible Pumps

Progressive Cavity Pump

SOLAR SYSTEM SOLUTIONS

Solar PV System (On Grid)

Solar PV System (Off Grid)

Hybrid Solar System

Solar Water Pump

Solar Street Light

Solar Inverter

Solar Accessories

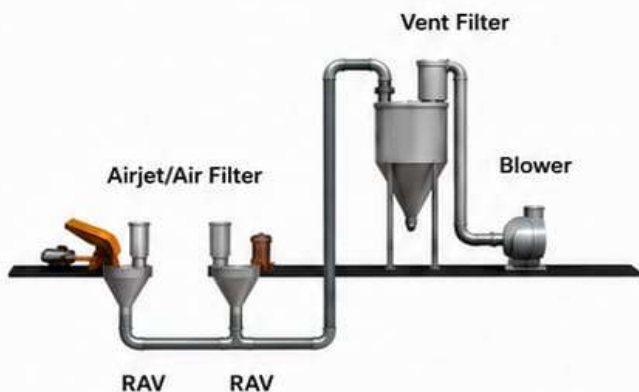

MATERIAL HANDLING SYSTEMS

Our Solutions Includes:

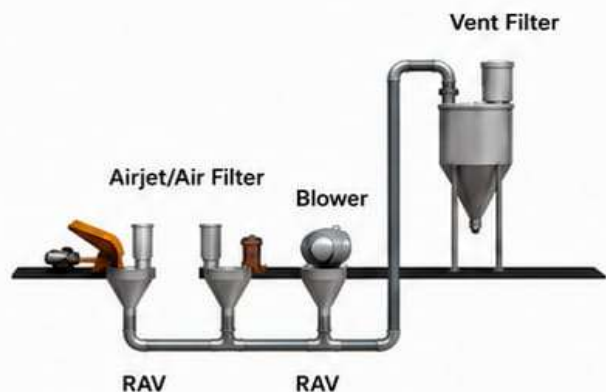

- Pneumatic Conveying
- Powder Handling Systems
- Dust Collecting Systems
- Seabulk Container loading / unloading process
- Dense Phase Conveying Systems
- Bulk Bag Unloading Systems
- Silo Storage
- Closeloop Nitrogen Conveying Systems
- Weighing & Batching
- Packing & Palletizing

Vacuum Conveying (Negative Conveying)

Pressure Conveying (Positive Conveying)

PRODUCT PORTFOLIO OVERVIEW
